HOW TO START YOUR JOURNEY TO A BETTER LIFE

We'll assign you a Client Consultant who will assist with all your questions and gain an understanding of your current health, goals, and motivations. Our experts will work with you to find the right surgical schedule, and financing to fit your needs. Throughout your entire journey with TreVita, your Consultant will provide constant support and guidance.

Get ready to take the leap towards your weight loss goals! Simply complete the health history form your consultant will provide and your chosen surgeon will review your application within 1-2 days to determine if you're an eligible candidate for surgery.

Once you are approved for surgery, you will choose your surgery date, secure your spot by making a small deposit, and prepare for surgery. Our coordinator will help plan your itinerary and our on-site concierge will be able to assist you with any needs that may arise during your trip.

THE TREVITA EXPERIENCE

DAY 1: ARRIVAL

- Your driver will meet you at San Diego International Airport to transport you across the border to your hotel in Tijuana, Mexico.
- A TreVita Concierge will help you check-in to your hotel to relax after your day of traveling.

DAY 2: SURGERY

- Your driver will take you to the hospital for your surgery in the morning.
- Your Concierge and the doctor's staff will assist with check-in and preparation for surgery.

DAY 3: RECOVERY

- Stay an additional day at the hospital for monitoring and testing after your surgery.
- Begin walking around the hospital to aid in your recovery.

DAY 4: BACK TO HOTEL

- After being discharged, your driver will meet you and take you back to your hotel, your TreVita Concierge will be waiting for you at the lobby.
- Enjoy your final day of recovery & relaxation in Tijuana, Mexico.

DAY 5: DEPARTURE

- Check out of your hotel before 12:00 PM PST.
- Your driver will take you across the border through an express line back to the San Diego International Airport for your flight home.

WEIGHT LOSS SURGERY OPTIONS

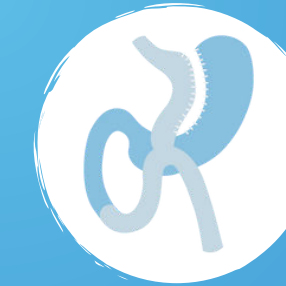

GASTRIC SLEEVE (VSG)

Involves the removal of a large portion of the stomach, resulting in a smaller, tube-shaped stomach

GASTRIC BYPASS (RNY)

Involves creating a small stomach pouch and rerouting a portion of the small intestine to this pouch, bypassing the rest of the stomach and the upper part of the small intestine.

MINI GASTRIC BYPASS (MGB)

Less invasive and involves rerouting the small intestine in a single loop instead of two, making the surgery faster and easier to perform.

REVISION SURGERY

Revision surgery is for patients who did not achieve weight loss goals or had complications.

DUODENAL SWITCH SURGERY (DS)

Combines gastric sleeve with rerouting of the small intestine for weight loss.

POST-SURGERY CARE

AFTER SURGERY

We offer a comprehensive post-surgery care program available, in English and Spanish, for questions for 12 months after surgery.

Unlimited Facebook messenger communications

WELLNESS IN THE PALM OF YOUR HANDS

While most clients will see amazing results with the surgery alone, the procedure itself is often secondary to healthy lifestyle changes when it comes to long-term sustainability. That's why we created the TreVita App to help you track your process.

TREVITA APP + SCALE

TreVita App is available for both Apple and Android Phones.

The TreVita App is your go-to resource for building a better you. The app allows you to log your daily progress manually or automatically through an integration with the TreVita Bluetooth Smart Scale.

TreVita Bluetooth Smart Scale

The TreVita Bluetooth Smart Scale measures a broad range of body composition metrics: weight, BMI, body fat, water % and muscle mass.

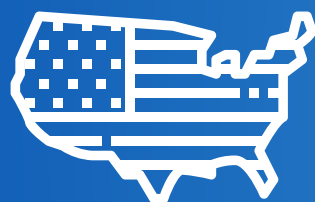

MOST TRUSTED IN MEDICAL TOURISM

With a combined experience of over 60 years, our doctors are dedicated to providing exceptional healthcare.

5-star reviewed

100% of clients come from the U.S.

Most client-focused company in the industry.

OUR CLIENTS SPEAK FOR US

“I had the best experience with TreVita and their support staff...They went above and beyond to make sure I was comfortable and taken care of and even made sure my companion was comfortable and taken care of. Everyone with TreVita, all the way down to the drivers that took us to and from Mexico, and to and from the hospital and hotel were all very polite and knowledgeable and helped calm my nerves the entire way.
- Talisa Brandt”

TreVita Client

“The doctors and surgical staff made me feel comfortable the whole time I was there. Everything went very smooth from the moment I got there until I left. I highly recommend them if you plan on changing your life.
- Mark Barnhouse”

TreVita Client

“The entire process was so fast and easy. The clinic staff were friendly and let me rest, honestly, my favorite part. I'm excited for this new lease on life and I can't wait to see my results. If you're still on the fence, just do it!
- Michelle Holladay”

TreVita Client

“My experience with TreVita was absolutely the best experience I've ever experienced. I came from California, and I was at first a little skeptical of the surroundings and the hospitals in getting over the border but they had a concierge with me the entire time it was absolutely no problem. It was one of the easiest trips I've ever been on the doctors and nurses and staff. We're beyond anything I have ever even dealt with in California the hotel that they put me in was absolutely beautiful it was like a top-notch surgery. I would highly recommend this doctor at any point in time and in fact I will be going to Tijuana again for a different kind of surgery. Thank you guys so much for showing me that you guys actually care and making this easy for me and just being better than California could've ever be.
- Elizabeth Petersen”
